

Key activities for Spring 1 in Year Two:

We will begin working on our new topic "Wild about animals"

- We will learn about animals around the world looking very closely at animals from the rainforest and from Africa.
- We will visit Knowsley Safari Park.
- We will be learning about maps and where different continents, countries and oceans are.

Learning in Year Two:

In writing children focus on writing in clear and accurate sentences. We will look to add more detail, begin to use different punctuation, be aware of the different types of sentences, for e.g. command, statement, question and exclamation. We will also look to check our work using a dictionary.

In guided reading children will continue to work on comprehension skills, writing clear answers to questions about a text. Children will also be increasing in confidence when reading text independently.

In maths children will focus on multiplication and division. We will also keep working on answering a range of

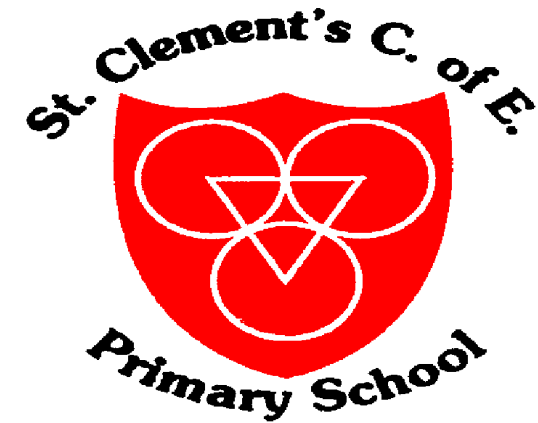

Homework:

All children need to focus on reading everyday as their main form of homework. Every child must read for at least six minutes per day and this will help with all areas of learning, including learning new words to use.

We will also be starting to send home additional projects to support our learning in our Science, History and Geography. As we move
